SOUTHEAST ALASKA SPRING TROLL FISHERY ANNOUNCEMENT

Sitka. . . The Alaska Department of Fish and Game announced today the following information concerning the commercial spring troll fishery:

The spring troll areas and Terminal Harvest Areas (THA) listed below **will remain open until further notice:**

Ketchikan (101-29)	West Behm Canal (101-90)	Neets Bay THA (101-95)
Clarence Strait (106-20)	Steamer Point (106-30)	Ernest Sound (107-10)
Anita Bay THA (107-35)	Port Armstrong THA (109-11)	Frederick Sound (110-31)
Chatham Strait (112-12)	Hidden Falls THA (112-22)	Sitka Sound (113-41)

The spring troll areas listed below will be open according to the following schedule. All areas will open at 12:01 a.m. of the opening date and close at 11:59 p.m. of the closing date. The openings may be extended if the Alaska hatchery contributions are high. Information on extensions will be given in a future news release.

Ketchikan Areas:

West Rock (101-21)	May 23-24
Point Alava (101-41)	May 25-26
Kendrick Bay (102-10)	May 20-22

Petersburg/Wrangell areas:

Sumner Strait (105-41)	May 20-22
Snow Pass (106-41)	May 23-25

Chatham Strait areas:

Little Port Walter (109-10)	May 23-25
Tebenkof Bay (109-62)	May 21-23

Sitka area:

Western Channel (113-01)	May 21
Biorka Island (113-31)	May 21
Goddard (113-32)	May 21
Redoubt Bay (113-30)	May 21-22
Salisbury Sound (113-62)	May 21-23

North Chatham Strait, Icy Strait and Pelican areas:

Lisianski Inlet (113-95) May 21-23
Port Althorp (114-50) May 21-23

The following areas will open May 20-26:

Hawk Inlet (112-65) Stag Bay (113-97) Cross Sound (114-21)
South Passage (114-23) Homeshore (114-25) Point Sophia (114-27)

District 8:

Stikine River Directed Fishery (108-41) May 21-23 (see 5AAC 29.095. District 8
KING SALMON MANAGEMENT PLAN for the area descriptions).

District 11:

Taku River Directed Fishery (111-31, -40) **CLOSED** (the first inseason abundance
estimate projected a terminal run size that is well below the preseason forecast and not large enough
to implement directed Chinook salmon fisheries.)

AREAS WHICH OPEN INITIALLY ON MAY 21:

Biorka Island (Fishery area 113-31): In waters of Sitka Sound south and east of a line from the
northernmost tip of Hanus Point (56°51.81' N. lat, 135°30.40' W. long) to the northwesternmost point on
Peisar Island, south and west of a line from the northwesternmost point on Peisar Island to the southernmost
point on Peisar Island to the southernmost point on Viesokoi Rock to a **point on Baranof Island at 56°51.72'**
N. lat, 135°23.21' W. long, to the southernmost point on Torsar Island to the northernmost point on Legma
Island to the southernmost point on Legma Island, and north and east of a line from the southernmost point on
Legma Island to the southernmost point on Liesnoi Island to Point Woodhouse.

Goddard Area (Fishery area 113-32): In waters enclosed by a line **Baranof Island at 56°51.72' N. lat,**
135°23.21' W. long, to the southernmost point on Torsar Island to the northernmost point on Legma Island to
the northernmost tip of Elovoi Island, and north and west of a line from 56°49.47' N. lat, 135°23.05' W. long,
to a point on Baranof Island at 56°49.63' N. lat, 135°22.51' W. long.

CODED-WIRE-TAGGED FISH

The heads of all adipose fin-clipped salmon must remain attached to the fish until the fish are sold [5
AAC 29.140 (b)]. Permit holders who freeze their catch onboard are asked to contact the department prior
to fishing so that sampling and fish ticket issues can be discussed. An Exemption Permit is required to
allow the removal of heads from Chinook salmon harvested in the spring areas prior to delivery.

CATCH REPORTING

**It is extremely important to keep fish caught in different fishery areas separated so that accurate
dockside sampling can occur by department personnel.** In order to maximize the harvest of Alaska
hatchery-produced Chinook salmon in the spring fisheries, catches must be reported accurately. If more than
one area or fishery is fished, or fish are kept for more than one period, each troller and tender is required to
keep and report these catches separately on separate fish tickets (5AAC 29.130). The fishery name and the
fishery area number must be reported on all fish tickets, as well as dates that the fishing trip started and
ended. All fish legally retained in the commercial salmon troll fishery, whether for sale or retained for
personal use (condition code 95) **must be recorded on a fish ticket.** Coho salmon may not be retained
until June 15, unless an earlier date is announced in a future news release. That date is one of several
pending regulation changes adopted at the 2012 Board of Fisheries meeting.

NEW REGULATIONS ADOPTED BY THE ALASKA BOARD OF FISHERIES

During the Board of Fisheries (BOF) meeting held in Ketchikan from February 24–March 4, new
regulations were adopted that will affect the management of the 2012 spring troll fisheries. *These new
regulations may not take effect until sometime in June. The department will issue a News Release
announcing when the new regulations go into effect.*

GROUND FISH BYCATCH

Fishermen are reminded that the season for lingcod bycatch opened in the salmon troll fishery on May 16. The lingcod season will remain open through November 30, or until lingcod area allocations are taken, whichever occurs first. All lingcod retained must measure at least 27 inches from tip of snout to the tip of the tail, or 20.5 inches from the front of the dorsal fin to the tip of the tail. Salmon trollers may not retain lingcod in the waters of Sitka Sound as defined in 5 AAC 28.150 (a). For additional information on groundfish bycatch in the salmon troll fishery, refer to the department news release issued on April 23 or contact the groundfish staff in Sitka at 907-747-6688.

2012 Spring and Directed Troll Preliminary Chinook Harvest and Effort
